PROFESSIONAL SUMMARY

Creative and detail-oriented **Frontend Developer** with strong expertise in building responsive, modern web interfaces using HTML5, CSS3, and JavaScript, currently undergoing advanced training in **Frontend & Full Stack Web Development** at Dice Academy. Combines a solid technical background in **Gaming & Graphics** (Unity & Unreal Engine) with hands-on UI/UX design skills in Figma to create intuitive, interactive user experiences across web platforms and real-time engines.

TECHNICAL SKILLS

Frontend Development:	HTML5, CSS3, JavaScript (ES6+), Responsive Web Design, DOM Manipulation, Web Layouts
Full Stack (In Progress):	Node.js, Express.js, REST APIs, Database Fundamentals
Design & Prototyping:	Figma (UI Design, Wireframing, Prototyping), Adobe Photoshop, Adobe Illustrator, Canva
Game Engines & 3D Tools:	Unreal Engine, Unity, C#, C, Python, Blender, Autodesk Maya
IDEs & Version Control:	VS Code, Visual Studio, Git, GitHub

KEY PROJECTS

Interactive Web Applications & Responsive Portfolios

[HTML5](#) | [CSS3](#) | [JavaScript](#) | [Figma](#)

- Designed and developed responsive, mobile-first web pages emphasizing clean component structure and seamless user navigation.
- Converted Figma wireframes and UI mockups into high-fidelity, interactive front-end web components.
- Implemented dynamic DOM manipulation, smooth styling transitions, and optimized layout assets for speed and performance.

Project Sentinel

[Unreal Engine](#) | [Game Systems & UI](#)

- Developed a tactical first-person shooter emphasizing player movement, weapon systems, and hit detection logic.
- Built intuitive, real-time HUD UI components (health bars, ammo counters, dynamic crosshairs) for enhanced player feedback.
- Implemented state-driven AI logic for hostile target detection and combat responses.

Lost Frontier

[Unreal Engine](#) | [Open-World Mechanics](#)

- Designed traversal, stamina systems, and interactive inventory UI menus for open-world exploration.
- Built quest-driven progression systems and integrated enemy AI interaction mechanics.

Real-Time Sign Language Recognition System

[Python](#) | [OpenCV](#) | [Deep Learning](#)

- Developed a real-time gesture recognition system leveraging Convolutional Neural Networks (CNNs) and OpenCV frame processing.

EDUCATION & CERTIFICATIONS

Frontend & Full Stack Web Development (In Progress)

Sept 2026 – Present

Dice Academy

Bachelor of Computer Applications (BCA) – Gaming & Graphics

2022 – 2025

Presidency University, Bangalore

Class 12 (High School Certificate)

2022

G. Rio School, Kohima, Nagaland
